NATIONAL PREPS

MOBILE SCOUTING APP

Introducing the National Preps-SportsBoard (NP-SB) Mobile App, the first mobile app that:

- ◆ Is accessible with or without connectivity (on the field, in the office, in a basement or a cinderblock building; anywhere with challenging connectivity conditions).
- ◆ Allows your coaches to collect videos, photos, notes & measurements during open evaluation & recruiting periods using our App vs doing the same and texting the data in to your staff.

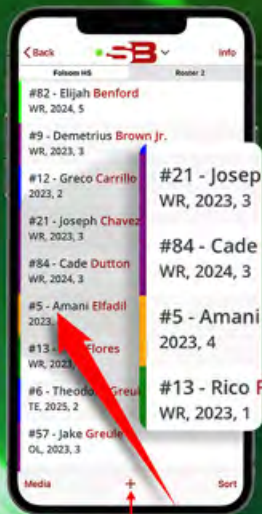

SEARCH STATE & SCHOOL

- ◆ After you send us an export from your recruiting database of all of the prospects on your recruiting board, we will import that list into your private NP-SB account (a completely different account from the account you have for NP's scouting service). Your prospect list will be organized by State.
- ◆ When a coach goes on the road, select the State where the high schools are located.
- ◆ After selecting California, the high schools which your recruits play for appear on the screen.

VIEW ROSTERS & SHORTCUTS

- ◆ After selecting Folsom High School, the athletes who are on your recruiting board appear.
- ◆ Notice the position, grad year and color-coded ranking group/status below each athlete's name.
- ◆ Swipe right to left on the athlete's name to collect:
 - notes
 - photos
 - video clips
 - audio notes
 - testing & measurement data
- ◆ Notice the '+' sign at the bottom so that coaches can add a player and data about that player not previously on your recruiting board.

IN-DEPTH PLAYER PROFILE

If you tap on the athlete instead of swiping, you can:

- ◆ See more details about the athlete on the General and Info tabs.
- ◆ Enter notes & measurements or capture media using the other available tabs.

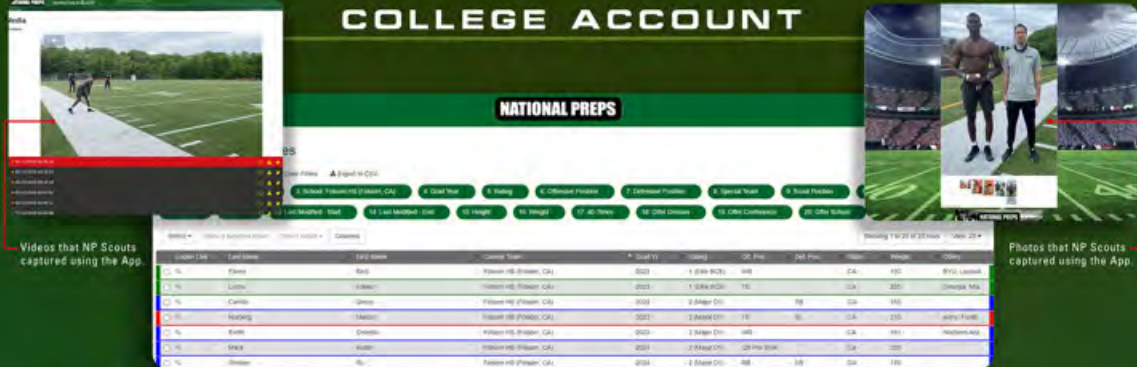

Notice the:

- headshot
- green color around the headshot designating your ranking group
- unverified height and weight (you will enter verified height and weight under when you actually verify it).

You can use the 3 buttons on the right to:

- Delete an athlete
- Add/edit contact information
- Add administrative notes

COLLEGE ACCOUNT

- ◆ All of the data your coaches capture AUTOMATICALLY syncs with your NP-SB account.
- ◆ You can use the app to capture all of your data regardless of connectivity status. If you are on-line, the app will sync every ~30 seconds; if you are off-line, the app will AUTOMATICALLY sync when it detects connectivity.
- ◆ When the sync completes, all of the data will be organized AUTOMATICALLY.

BENEFITS

No more text bombs from coaches while they are on the road containing notes, videos and photos, which require the support staff to pull all-nighters to organize.

On or off the field, speed and efficiency are two of the key factors driving success and wins. By using NP-SB, you will increase speed and efficiency in recruiting, which accelerates your recruiting process, increases your chances of signing your top recruits and, ultimately, winning!
